Public Consultation
Proposed Clifford Gardens Bike Nest

This document outlines our proposals for the introduction of a Bike Nest on Clifford Gardens NW10. Please read the information in this document, then complete, and return the enclosed questionnaire - **postage is free**. Alternatively, this document is also available for completion online at https://haveyoursay.brent.gov.uk. Responses from within the consultation area only will be considered. The closing date for the return of the questionnaire is **30 September 2025.**

Why are we proposing this change?

Brent Council aims to improve facilities for cyclists in the borough and promote active and sustainable travel. In line with the vision set out in Brent's Active Travel Implementation Plan 2024-2029, the Council is encouraging more residents to take up cycling, to enjoy the health benefits that this brings and to help reduce traffic congestion and improve air quality in the borough.

The Council has received requests from residents in the Queens Park ward to provide secure cycle parking in streets where they do not have access to private outdoor space. Bikes can block hallways and staircases in some properties, and those left on street can be a target for cycle theft.

Through its cycle parking programme, the Council propose to install bike nests in areas where there is a high demand from local residents for this facility.

What is being proposed?

We are proposing to introduce a Bike Nest on Clifford Gardens as shown on the enclosed plan. The proposed Bike Nest would be located near the junction of Clifford Gardens and College Road. The Bike Nest will take 2.7m in space.

The nest, which has the capacity to store six bicycles, will be rented to users for an annual fee.

What will happen next?

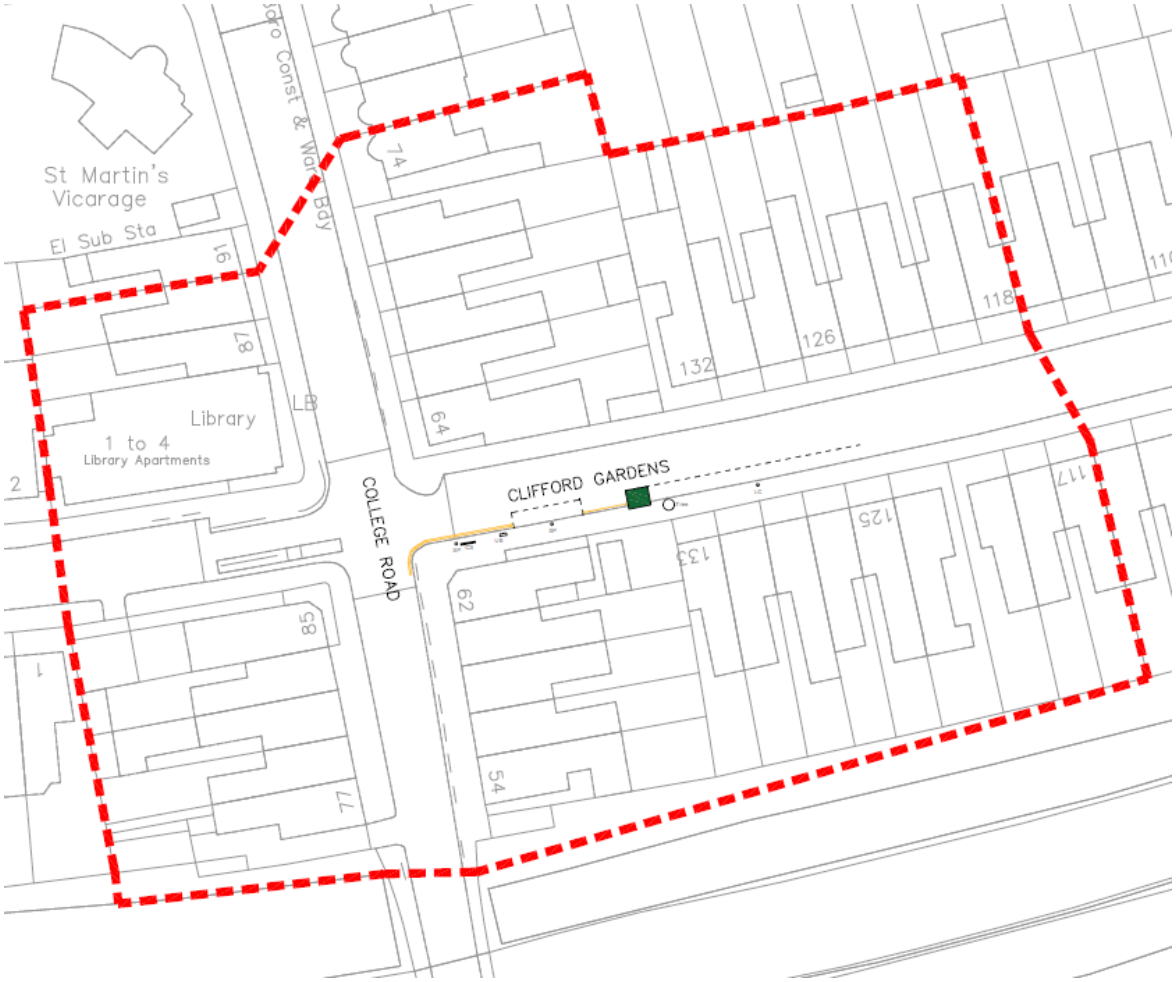
At this stage of the process, we are seeking your initial views. To give us your feedback, please complete and return the attached questionnaire using the freepost facility (or online using the link at the top of this page) by **30 September 2025.**

The results of this consultation will be used to decide on whether to implement the proposals.

Healthy Streets and Parking

Please see the back of this document for further details on how to respond to this consultation.

We are consulting residents/businesses in the area within the marked red line



Your views are important to us

Only the questionnaire issued by the Council should be used to respond to this consultation and no photocopies will be considered.
