	New planter
	New cycle parking stands
	New bench
	Existing guardrail to be removed
	Existing grass verge planted up
	Existing trees
	Indicative proposed tree location

School co-design workshops
 Educational and co-design workshops were conducted on 15th November 2023.

Students were educated on different elements of sustainable and climate resilient highway and landscape design and used this to suggest their own thoughts on the introduction of different Green and Healthy Street interventions outside their schools.

Insight was gained from students on how they use their street, favourite colours and types of plants. These details have shaped the design interventions proposed.

Street decluttering
 Redundant street furniture, signage and other street clutter to be removed subject to audit and funding.

Parking
 No parking affected.
