Public Consultation

Proposed Berens Road Junction to Pember Road Bike Hangar

This document outlines our proposals for the introduction of a Bike Hangar on Berens Road. Please read the information in this document, then complete, and return the enclosed questionnaire - **postage is free**. Alternatively, this document is also available for completion online at https://haveyoursay.brent.gov.uk Responses from within the consultation area only will be considered. The closing date for the return of the questionnaire is: **24 September 2021**

Why are we proposing this change?

Brent Council aims to improve facilities for cyclists in the borough and promote active and sustainable travel. In line with the vision set out in our Cycle Strategy 2016-2021, the Council is encouraging more residents to take up cycling, to enjoy the health benefits that this brings and to help reduce traffic congestion and improve air quality in the borough.

The Council has received requests from residents in the Kensal Green area to provide secure cycle parking in streets where they do not have access to private outdoor space. Bikes can block hallways and staircases in some properties, and those left on street can be a target for cycle theft.

Through its cycle parking programme, the Council propose to install bike hangers in areas where there is a high demand from local residents for this facility.

What is being proposed?

We are proposing to introduce a Bike Hangar on Berens Road as shown on the enclosed plan. The proposed Bike Hangar would be located near the junction of Pember Road, on the first parking place. The Bike Hanger will take 3m in space.

The hangar, which has the capacity to store six bicycles, will be rented to users for an annual fee.

What will happen next?

At this stage of the process, we are seeking your initial views. To give us your feedback, please complete and return the attached questionnaire using the freepost facility (or online using the link at the top of this page) by **24 September 2021.**

The results of this consultation will be used to decide on whether to implement the proposals and you will be notified of the outcome by letter in due course.

Sandor Fazekas, Project Development Manager, Highways and Infrastructure

Please see the back of this document for further details on how to respond to this consultation.

Proposed Bike Hangar location on Berens Road
