Dear Residents,

Our ref: VFA-20mph rsc

RE: Proposed 20 MPH speed limit and short sections of double yellow lines.

Location: Valley Drive and its branching roads

I am writing to inform you the outcome of the public consultation carried out in March 2022 for the above proposal.

The results of the consultation have been analysed and we have considered all comments and objections.

As the measures will improve traffic and parking conditions in the area and improve access and safety for all road users, the Council has now decided to proceed further with the advertisement of traffic management order (TMO) for the proposed scheme. **Details of the scheme plan is shown overleaf.**

The scheme will be implemented soon after the necessary traffic management order is made. The term contractor, subject to weather conditions and parked vehicles /obstructions will program the works.

If you require further information regarding the implementation, please contact Mr Annesley Tennent by emailing highwaysconsult@brent.gov.uk.

Yours sincerely

Sandor Fazekas
Head of Healthy Streets and Parking
