

Bramshill Playground Refurbishment

# Consultation feedback

- Brent parks service put out a consultation to residents in nearby streets to get feedback on what they would like to see in the park: The following was suggested:
  - A Slide
  - Swings
  - More sensory play
  - A dog park

As a result of the consultation we approached 2 contractors to produce designs for the space.

# Costing Guidance

Please see price range for similar items on past projects for comparison

Playground gates – £1500 -£2000 per gate

Picnic tables – Approx £1000

Removal of mounds and old timber – £20-£30,000

Spinning cup - £2-3000

Large bespoke play feature £20,000 - £30,000

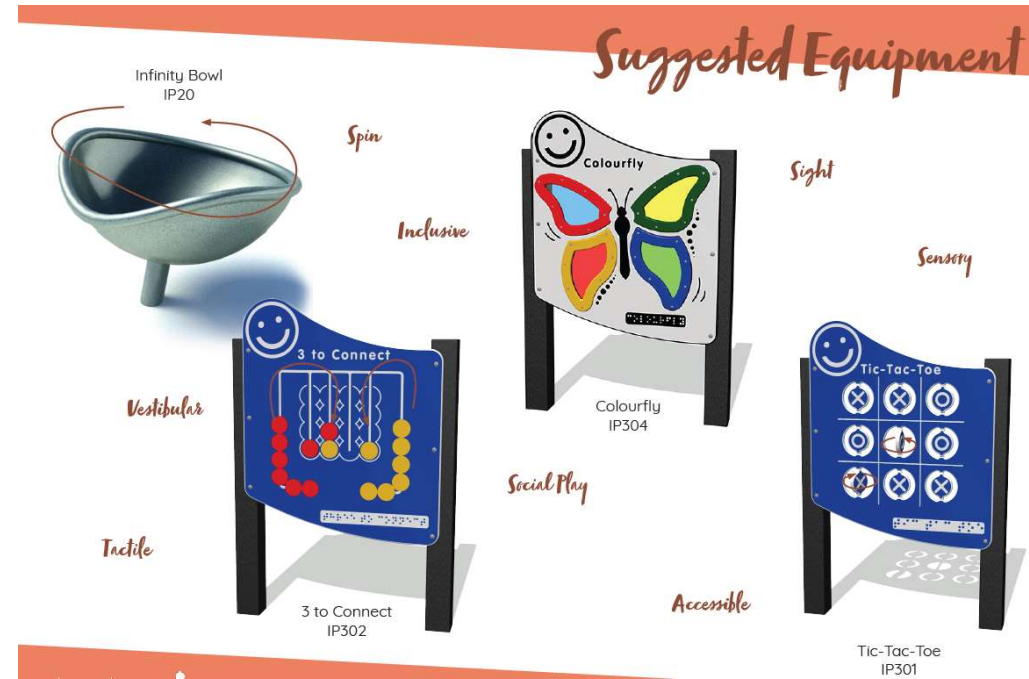

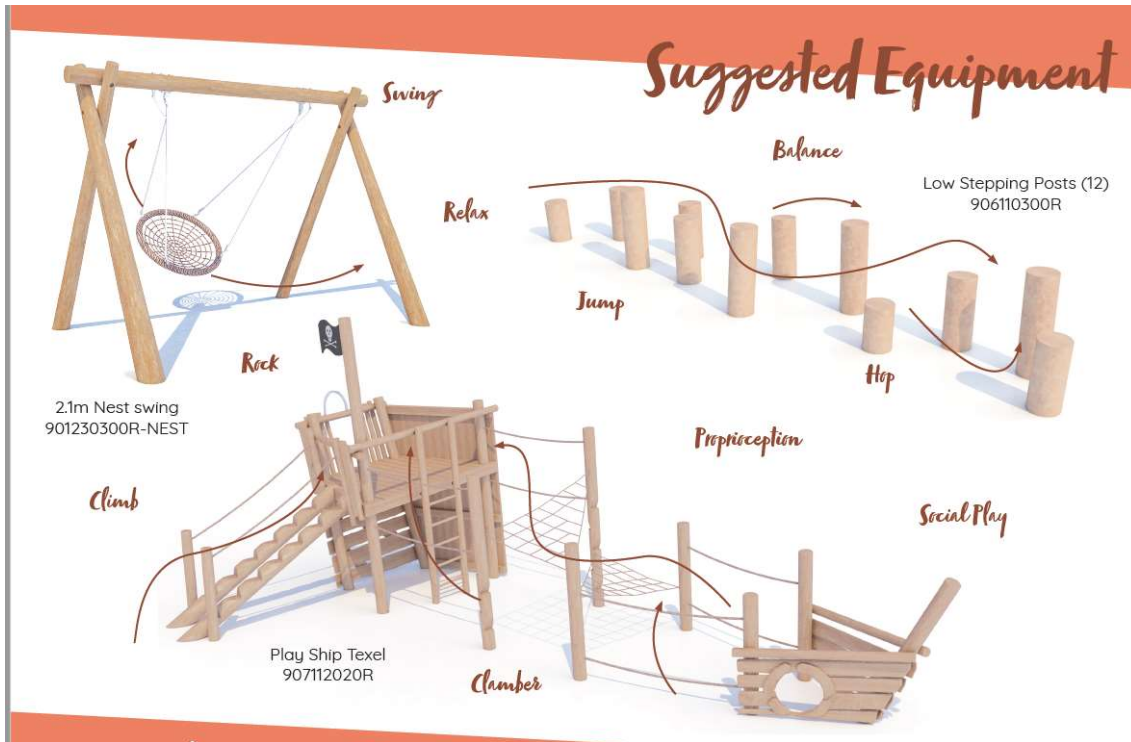

# Option 1 Proposals

# Features of design

- Convert existing Trampoline to make it wheelchair accessible
- Remove mounds to improve site lines
- Removal of large existing damaged wooden unit
- New multi play unit (as in image or similar) Wooden option available
- New inclusive rope swing or basket swing
- New buddy board swing (similar to that in image)
- New inclusive rock n bowl
- New pirates lair rope feature
- Floor graphics
- Wooden trim trail
- Additional fencing and new playground gates

# Option 2 proposal

# Features of design

Installation of New playship

Installation of new basket swing

Installation of new infinity bowl

Installation of stepping stone posts

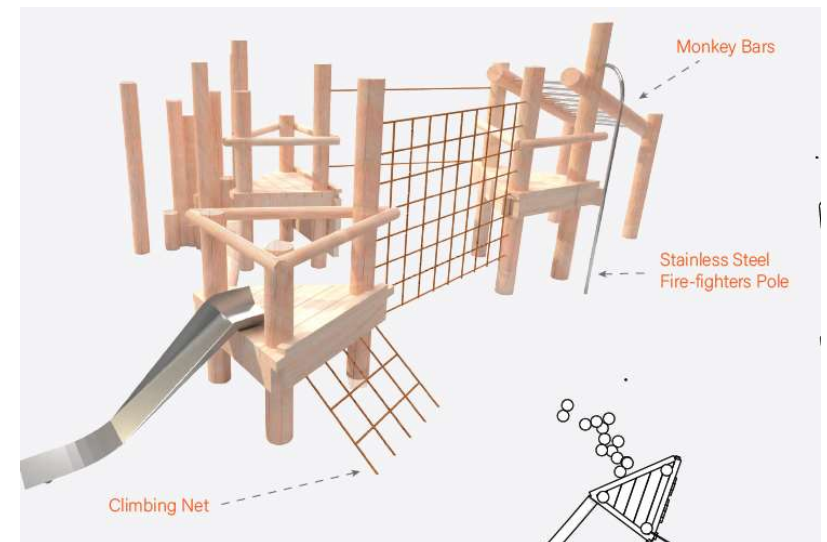

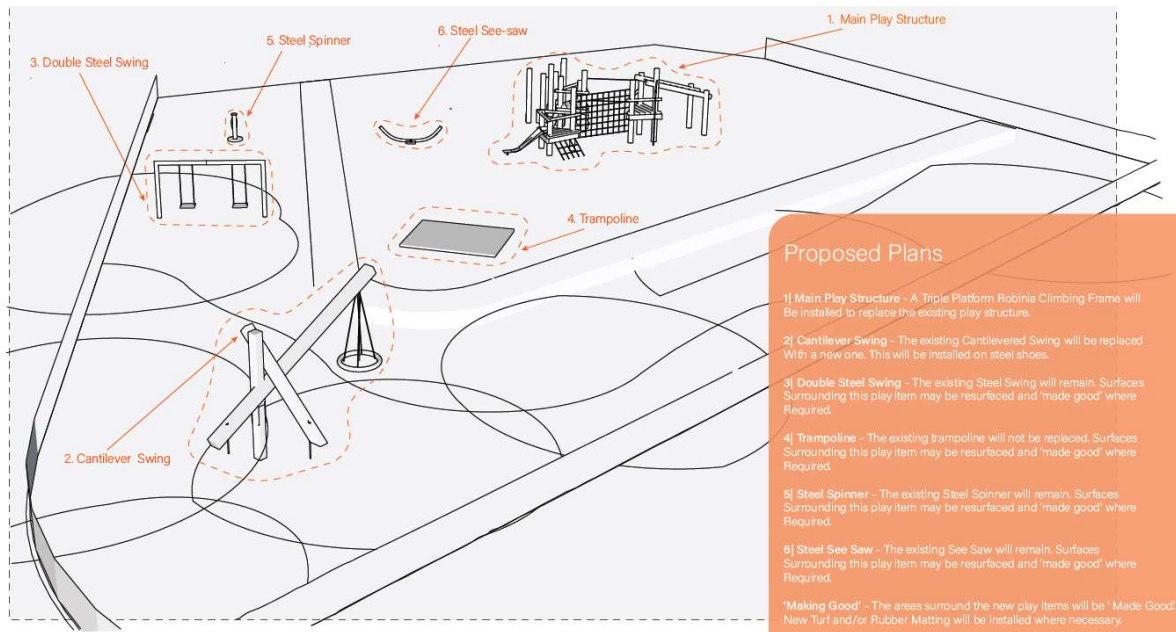

Installation of graphic play panel

Safety surfacing provided with new installations

Existing fencelines and gates to remain

Mounds to remain (this can be looked at but would likely result in the removal of some of the new items)

# Option 3 proposal

# Features of design

- Main structure made from Robinia to replace existing
- Existing cantilever swing to be replaced and installed on steal shoes
- Existing steel swing to remain as is
- Trampoline to remain as is – surfacing made good where required
- Steel spinner to remain as is
- Steel seasaw will remain as is
- Areas around existing equipment to be made good where required
- Mounds will be flattened to improve site lines
- Existing gates /fencing to remain

# Points to note

- Bins would not be installed / managed as part of this installation
- Works are required to the site before pieces are installed to help manage concerns around anti – social behaviour. Mounds are to be reduced to assist with site lines.
- Equipment has been chosen with existing concerns in mind
- Not all Gates and fencing will be refurbished as part of this tender
