

Public Consultation

Church End Market Relocation- Traffic and Parking Restrictions

This document outlines our proposals for traffic and parking restrictions to enable Church End Market to move onto Church Road (between Roundwood Road and Ilex Road). Please read the information in this document, then complete, and return the enclosed questionnaire - **postage is free**. Alternatively, this document is also available for completion online at <https://haveyoursay.brent.gov.uk>. Responses from within the consultation area only will be considered. The closing date for the return of the questionnaire is: **Friday 29 July 2022**. A public exhibition will also be held on Eric Road on **Wednesday 13 July 2022 from 9am – 3pm**. This will offer the chance to view plans of the proposed changes and ask any questions you may have to Council officers.

Why are we proposing this change?

Brent Council is currently building 99 new council homes and a market square on the site of the former car park in Church End. The market attracts visitors to the area and helps support the local economy. Whilst the new homes are being built, the existing market will need to be temporarily moved onto Church Road (between Roundwood Road and Ilex Road) on a Wednesday and Saturday for approximately 2-years. Once the new homes are constructed, it is anticipated the market will move back into a new 'market square' which is being delivered as part of the development.

To enable the market to be relocated, we are proposing to introduce a series of traffic and parking restrictions. This will enable market stalls to be set up in Church Road and traders to park their vehicles in the local area on Market Days (Wednesdays and Saturdays).

What are the proposed changes?

The proposed changes are shown in the attached drawings and are described below: -

1. ***'No Motor Vehicles' Restriction on Church Road (between Roundwood Road and Ilex Road):*** - A no motor vehicle restriction on Church Road will be introduced as shown on the attached drawing. The restriction is proposed between 6am and 6pm on Market Days (Wednesdays and Saturdays). During these times, Buses will be diverted on the High Road and A407 Church Road and signage will be provided to advise passengers of the diversion and location of temporary bus stops. The locations of these temporary bus stops is also shown in the attached drawings.
2. ***Market Trader Permit Holder Parking Bays:*** - To enable market traders to park their vehicles, some existing Pay and Display and Shared Use (Pay and Display and Resident Permit Holder) parking bays will be allocated for market trader permit holders only on Market Days. The location of these market trader permit holder parking bays is shown in the attached drawings.
3. ***New Signs:*** - New signs will be put up on Church Road (by its junction with Roundwood Road and Ilex Road) to advise drivers of the restrictions. Temporary barriers will also be provided and will be managed at all times to enable access for the Emergency Services if required.

Please see the reverse of this letter for further details on how to respond to this consultation.

Sandor Fazekas – Head of Healthy Streets and Parking
