Dear Resident / Occupier,

Proposed Road Local Safety Scheme at Craven Park Network Rail Bridge between property number 37 and Bridge Court, Craven Park

Network Rail are proposing to elevate the existing railway bridge which will allow greater clearance for trains. As part of the works the existing bridge will be completely removed, and a new bridge will be installed. While these works are undertaken, we are also proposing to introduce a local safety scheme on Craven Park Network Rail Bridge as shown on the enclosed plan.

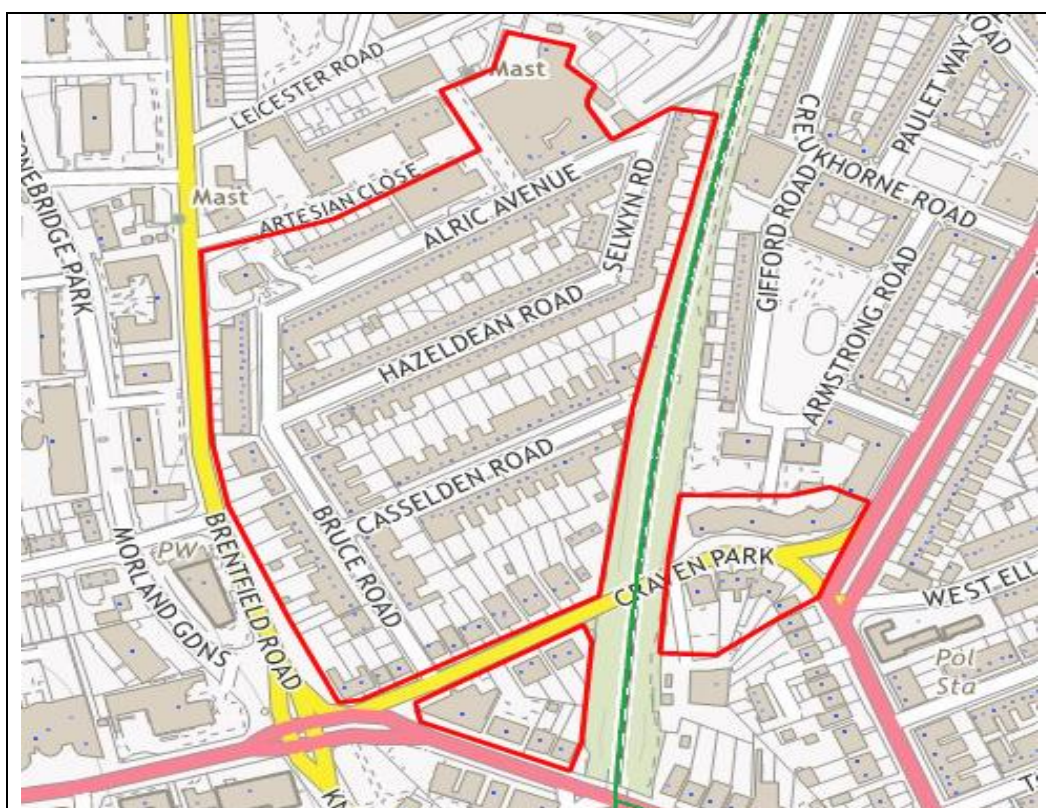

Pedestrian safety concerns were raised regarding lack of footway width along the existing bridge. HGV access from Brentfield Rd to Church Road via Craven Park is also of detriment to pedestrian travel and HGV traffic will be restricted. However, HGV access to properties in the area affected will still be permitted.

The proposed improvements include:

- A permanent single-lane priority traffic scheme on the Craven Park railway bridge. Currently the footways along the bridge are approximately 1.2m wide on the northern side and 1.3m wide on the southern side. With the proposal, both footways will be widened to 2.1m.
- The improvements will give priority to vehicles travelling from Church Road over vehicles travelling from A404 Hillside. This is determined by the high traffic flow from Hillside.
- Introduction of 7.5 tonne weight limit signs between Brentfield Road and Church Road. This aims to prevent vehicles larger than 7.5T using the residential street as a short cut. However, delivery vehicles to residential properties within the Craven Park and Bruce Road areas will still be able to access those properties.

We are directly consulting residents/businesses in the area within the red solid line. However, we shall also accept comments from residents who live immediately outside of the consultation catchment area.

Your views are important to us

As part of the consultation and the statutory process we are asking for your view on this proposal. **If you wish to share your comments or views regarding this, please either write to us on the above address or email highwaysconsult@brent.gov.uk within 21 days from the date of this letter quoting reference TSU/25/709CAW9.**

Yours faithfully,
